Vision Board

**Goal 1: First paid invoice,
Petaron**

**Goal 2: First paid invoice,
OrliClinic**

Goal 3: Pitch with confidence

**Backup: Read 2 books, build
better habits**

Goal 1 (hard): First Paid Invoice for Petaron

S

Specific

Get Petaron's first paying customer for its AI order processing for logistics companies

M

Measurable

1 invoice paid, bank receipt as proof. Any customer, any amount

A

Achievable

The order-processing product is built and an outreach list of 40 logistics companies is ready

R

Relevant

Getting paid turns Petaron from a project into a business, and it is my My Dream case

T

Time-bound

By the final Drive presentation, week of 4-11 Jan 2027

Goal 2 (hard): First Paid Invoice for OrliClinic

Specific

Get paid for OrliClinic, online booking that sits on top of the clinic's Optima calendar

Measurable

1 invoice paid, bank receipt as proof. Any clinic, any amount

Achievable

Live at Werner Clinic on a real Optima calendar, with a pitch deck and a 20-minute demo ready

Relevant

Proves clinics will pay for it, not just use it

Time-bound

By the final Drive presentation, week of 4-11 Jan 2027

Goal 3 (soft): Pitching and Presenting

Specific

Pitch my businesses confidently to customers, peers and coaches

Measurable

After every pitch I write down the verbal feedback as improvement points; the number goes down from pitch to pitch

Achievable

Pitching moments are in my calendar: group meeting, customer demos, final Drive presentation

Relevant

Goals 1 and 2 both depend on convincing a customer to pay

Time-bound

By the final Drive presentation, week of 4-11 Jan 2027

Backup soft goal: read 2 books and improve my habits

S: read 2 books (titles to be chosen) and apply what I learn to my daily habits

M: 1 habit per book tracked in a habit tracker, plus a short reflection per book

A: about one book per half of the semester, alongside the minor

R: better habits support running Petaron and OrliClinic while studying

T: both books read and reflected on by 9 Jan 2027
