

Minor Building your own Business – General Description – 2026-2027

Explore your entrepreneurial ambitions and work on your own business idea with the help of experienced entrepreneurs and team coaches.

This minor will help you explore your entrepreneurial ambitions and even kickstart your own company, which is especially interesting when you choose to do an entrepreneurship graduation project after this minor.

From start to finish, you will lay out your individual development as an entrepreneur (your Drive). This will be supported with guidance with your coach.

Intended Learning Outcomes

1. The student demonstrates a professional and reflective approach to entrepreneurial practice and personal skill development.
2. The student demonstrates the ability to generate, interpret, and apply relevant insights to identify and assess potential business directions.
3. The student demonstrates the ability to design and critically evaluate business model scenarios, using evidence and KPIs to validate them.
4. The student demonstrates the ability to assess the developed business case in terms of viability, desirability, feasibility, and social responsibility

Assessment

You will be assessed on successfully completing the following:

- Boost Camp challenge and Team up for Business challenge – 2 group assignment² (together 5 ECTS)
- My Dream – individual project (20 ECTS)
- My Drive – individual project (5 ECTS)

Three main elements of Design

The minor strongly follows the Tim Brown approach: Inspiration, Ideation, Implementation:

Inspiration

Conduct and reflect on a multitude of research methodologies: Explore, define, and analyse Trends, Markets, and Customers to identify and assess potential business directions

Generate, analyse and evaluate ideas to validate business scenario's

Implementation

Develop and assess your business case in terms of viability, desirability, feasibility, and (corporate) social responsibility

Personal development (MyDrive)

The minor boosts your personal development by helping you developing entrepreneurial competencies, creative and entrepreneurial skills. You are in the lead in this so you get a taste of generating and producing new initiatives for businesses. Amongst others: reflective-, planning-, goal setting-, leadership-, risk taking-, networking- and team working skills.

The first weeks

The minor starts with the **Boostcamp**. In two weeks' time, your team will tackle a challenge related to setting up and or running a business.

After that, you will dive into a business challenge in which your team works on a real challenge for an entrepreneur or company (3 weeks). This is the **Team up for Business** part .

My dream

After the first few weeks, it's time to start your individual project. In recent years, students came up with all kinds of business ideas, such as a vegan lunch spot, a jewelry brand and a new video game. In twelve weeks' time, you go through the design circle: inspiration, ideation and implementation.

In the **inspiration phase**, you do desk and field research. You explore how to grasp the voice of a customer, what trends there are in the market and you initiate and perform research to explore business case options.

In the **ideation phase**, you try to look at alternatives and come up with other creative ideas. You dig through all the research data to come up with several good ideas.

In the **implementation phase**, you work on your marketing and financial plans. The final product is your plan, which you present to your lecturers at the end of the minor.

Halfway, '**Global Entrepreneurship Week**' takes place with guest speakers and Q&A's. Just search on Google for Loeihard, Sassybot or Twirlbound to get an idea of visiting companies. You will also attend several external workshops of your choice, for example sales, marketing or sustainability.

Structure of minor

This minor has 3 major elements:

- 1) **Boostcamp** and **Team-up-for-Business**; to get started and get into the world of entrepreneurship
- 2) **MyDream**; to really explore the business-side of entrepreneurship
- 3) **MyDrive**; to explore the personal side of entrepreneurship

The personal development side of the minor takes place over the course as a whole.

Teaching method(s):

Interactive tutorials, coach meetings, business simulation, milestone meetings and guest lectures

International context

Business Cases are focusing on an international business challenge
